ELEGANTE

The ultimate in Modular Flooring

ELEGANTE

Elegante – Italian for Elegant – Defined as graceful, stylish, refined and sophisticated.

Elegante not only delivers exceptional visual features but also offers all the leading technical features of advanced modular flooring. Available in a stunningly modern longer plank design, Elegante will compliment your home giving it a luxurious look and feel.

Elegante is produced in one of the world's most advanced luxury vinyl plank manufacturing facilities, combining modular flooring technology in a Phthalate free formulation. This ensures that not only does Elegante look great, but it is safe to install in your home or office space. This is supported by its Floor Score certification meaning it complies with strict indoor air quality emission criteria. Elegante contains antibacterial and anti-fungal treatments which kill up to 99% of bacteria and fungi.

Elegante features a highly durable PU protection layer making it hard wearing and easy to maintain. It is also 100% waterproof meaning it can be installed in all areas of the home. With a 5.0mm thickness, this plank provides superior comfort under foot and excellent acoustic properties.

Elegante, with its style, durability and comfort makes it the perfect choice for the busy home and family.
