Wood Accents

COLLECTION

Nature's Floor

The colours and natural grain patterns of Australian timbers are the inspiration for this stunning collection of luxury vinyl planks.

The hand scraped emboss echoes the unique touch and feel of our natural timbers. From the deep richness of Marginata, the freshness of Marri or complexity of Spotted Gum, with 12 colours to choose from you are sure to find the perfect floor to compliment your decor.

It's manufacture shows respect to our health, safety and environment. Wood Accents is manufactured using at least 25% pre and post consumer recycled content, minimising manufacturing waste. Also it is a low maintenance product, promoting lower use of energy, detergents and water.

AloxPlus Abrasion Resistance

Extensive and innovative Australian research into advance flooring protection for our uniquely Australian conditions has delivered AloxPlus. This advanced floor treatment has been developed to maximise the life and beauty of your floor by creating a superior barrier to enhance abrasion resistance.

Phthalate Free

Not only does this range contain no harmful plasticisers nor harmful fillers but it is also phthalate free.

The use of 'phthalate free' plastics has long been the safety standard set for the manufacture of babies' bottles and toddlers' toys. You can now be assured that the Wood Accents phthalate free floor range your children are playing on, has been manufactured applying the same principles and concerns for their safety. Hexamoll®Dinch® has been developed by internationally renowned company BASF, for safe use in toys for children under 3 years, packaging for food and medical products.

Wood Accents was the very first Flooring Xtra range to incorporate this new phthalate free plasticiser into its manufacturing process. Not only does this advanced, phthalate free plasticiser make this vinyl floor the safest available for your children, but its exclusive use in this manufacturing process also maximises its flexibility and durability, prolonging its life and beauty.

Wood Accents is sourced from the only manufacturing plant licensed by BASF to use Hexamoll®Dinch®, making it the most advanced safety and performance based vinyl floor range available in Australia.
