AQUALIFE

Aqualife Hybrid Flooring is the latest technological advancement in hard flooring. It combines the best features of Laminate Floating Floor and Luxury Vinyl Planks into one durable and cost effective solution.

Aqualife is manufactured using an advanced, multi-layered manufacturing process which combines various layers with a solid waterproof core to create a superior, 100% waterproof floor. You can now achieve the look of an authentic timber floor without the issues traditionally associated with wood based products.

Aqualife is extremely durable and highly resistant to indentation. This is due to the wear layer being reinforced with Aluminum Oxide, which provides additional resilience to the surface of your floor. Aqualife can be installed in all areas of your home including traditional wet areas creating a seamless look throughout your home. Spills are also no issues with Aqualife as it is 100% waterproof - making it the perfect choice for the busy family home.

- 1 AloxPlus surface protection layer.
- 2 0.5mm Wear Layer.
- 3 High definition photographic layer.
- 4 Top LVT design & comfort layer.
- 5 Solid Polymer & Limestone core.
- 6 Advanced 5G locking system.
- 7 Bottom LVT Stability layer.
- 8 IXPE Acoustic backing.
