FLOORING XTRA

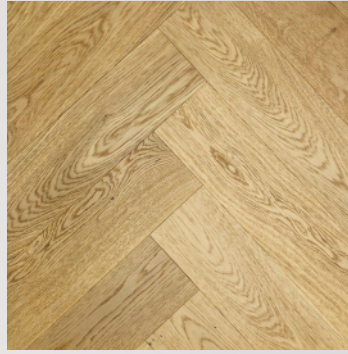

In a timeless tradition, Marlu brings two patterns: Herringbone and Chevron styles for homes that seek luxury and bespoke design. Each block is carefully made using Oak lamella for the wear layer, then bonded to a strong Eucalyptus plywood core and reinforced with a veneer backing. This thoughtful construction results in a strong and stable flooring which will be loved for years to come. Available in a range of classic stain colours, Marlu Parquetry will add an unrivalled elegance to any Australian floor.
