Imagining a home that is a joy to live in starts from the floor up, especially when it's as beautiful and durable as Arcadia hybrid. A modern home is often a busy one and the benefit of flooring which is low-maintenance, water-resistant surface and scratch and stain resistant is key in the success of a care-free interior design scheme.

Arcadia draws inspiration from the finest nature has to offer, from the variety of Australian native species through to natural oaks. The broad range of tones is artfully replicated in an incredibly realistic way, offering the beauty and authenticity of timber with the attributes that hybrid offers. Arcadia is constructed with Dunlop underlay backing, making for a comfortable, quiet home while the durable surface works hard to counter all that life brings. This is a high-performance product, one that welcomes pets, children and busy foot traffic. The perfect antidote to contemporary living.

Our Hybrid Planks are backed with a Dunlop Acoustic Underlay, a high performance underlay designed to reduce noise in the home and add warmth underfoot.

We are committed to helping the environment and making our homes a healthier place. Awarded the Best Practises PVC Certification by Bureau Veritas, each Arcadia Hybrid Plank is low in VOC's and phthalate free, helping improve air quality in the home.

Dunlop Wearshield provides the extra protection your planks need for your home. The innovative ceramic bead coating is spill, dent and scratch resistant – so you can easily care for your floors and enjoy them for many years to come.

Backed by the Sensitive Choice program, our Hybrid Plank products are phthalate-free & low in VOC's, contributing to cleaner indoor air quality.
